

December 1, 2011

Dear Parents:

As you are aware, the State of New Jersey has required that all pre-school children receive the flu vaccine for the school year 2011 – 2012. Our deadline for this is December 31, 2011. To date, I still have many children who have not received this vaccine. Unfortunately, this is not an option, and I am requesting that you contact me so that our school will be in compliance by this deadline and no further action will be taken by the State.

Thank you.

Sincerely,

Marilyn Hiscott
Director
